

## Specifications

---

The NEW Goldtouch Ergonomic mouse is the answer for comfort where a mouse is too flat or too vertical. Goldtouch Ergonomic Mouse is part of the Goldtouch keyboard range and has been researched, designed, and evaluated by the Goldtouch Company in the United States to ensure the new mouse meets their stringent quality and ergonomic effectiveness

Goldtouch Ergonomic mouse tilts at 24 degrees which meets the recommended tilt of between 22 and 24 degrees – not too vertical and not flat.

**Code 20GTR Right hand option**  
**20GTL Left hand option**
