 **KNIGHT**

We've designed, produced and delivered leading workspace solutions to New Zealand resellers for the last 30+ years. We've learned throughout this time that it requires innovation, resources and competence. Today's workspaces are developing into being more than just an office - time doesn't stand still and nor can we afford to. Knight brings you the whole package with multiple options across seating, workstations, screens and collaboration pieces that cover all areas of a workspace, and more.
