Mobile Whiteboards - Double Sided

Mobile Whiteboards - Double Sided

Choose PROWITE™ or WITAX™ mobile whiteboards when you need a board that is always in the right place. Quality and flexibility brought together in one easy to use board keeping you one step ahead.

Double sided whiteboards are available in both PROWITE™ Porcelain Enamel and WITAX™ Premium Acrylic surface options depending on your requirements.

The mobile frames are a strong square-profile tubular steel in a gloss white finish. We have recently upgraded these for improved functionality and they now feature stronger brackets and larger castors for better movement on carpet making them ideal for in the classroom or in the office. All castors are lockable. A slide-on aluminium pen tray (45cm) is also included with each whiteboard.

The mobile frame is expandable from 1200mm to 1800mm wide so can accommodate any whiteboard up to this size and if necessary you can upgrade your whiteboard size at any time. A wider mobile stand is also coming soon, to accommodate boards up to 2400mm wide.
