Write. Print. Save. In color.

NEW COMPACT COPYBOARD N-20J

Designed to fit your office or cubicle.
Compact size with a contemporary look.

Introducing the N-20J Copyboard with industry leading features for saving and sharing the notes from your meeting.

Network Capable

Smart Phone Functions

Mount on your wall.

EVERYDAY co-workers sit together in an office discussing the projects they have in front of them on a PC. This usually results in a lot of pointing at the screen and notes being hastily jotted down on paper. Now, with the introduction of the N-20J, people can communicate more effectively. By using this compact, full-featured copyboard, co-workers can better interact and share ideas through drawings and notes added to its dry-erase surface. Best of all, when the discussion is finished, the notes and drawings written on the board can be easily saved to a secure network.

Use with the optional rolling floor stand.
Easily move the N-20J from room to room.

N-20J

N-20J control panel.

- Intuitive User Interface.
- Fast and quiet
- Low power consumption.
- Network functionality.
- USB Direct Connection to PC.
- 3 File formats.
- Security function.
- Color print disable function.
- No application installation to PC.

Save digitally or print out your notes and drawings using your own personal copyboard!

N-20J
COMPACT COPYBOARD

A better way to communicate in small-office environments.

PLUS

Horizontal High Position
Horizontal Low Position
69" 1743mm
59" 1493mm
27" 685mm
Shown with optional stand.

Network Function
Connect to a network via an ethernet cable. There are two options for saving and sharing your information over the network.

Network Capable

• Save your copyboard data to the board's internal memory. Approximately 100 pages can be stored. Using an assigned IP address, your team can access the images on the board from their computers using a web browser. The data on the board is accessible even in "Stand-by" mode. Password protect the board for added security.

• When connected to the network, you can save to an FTP server so that everyone on your team has access to the saved information.

Access Via Your SmartPhone
Just install the Meeting Pocket App (MTGpocket) and gain access to many useful and time-saving meeting tools. Both Apple iOS® and Google Android™ mobile operating systems are supported, so you can use your iPhone®, iPad® or Android™ phone. The MTGpocket App lets you perform the "scan" function of the board from your SmartPhone. The resulting image file can then be previewed and saved to your phone's memory – as well as to the memory of phones belonging to anyone present in the meeting who has the MTGpocket App installed! Furthermore, the MTGpocket App lets you record audio and video during the meeting. The audio and video files are organized in the same folder as the board image files, so that all of the meeting data is in one convenient location. [Note: Using the MTGpocket App requires the connection of a "wireless access point" to the board as well as a compatible phone. Compatible with Apple iOS 4 and above and Android 2.3 and above.]
Built-in Software
There is no need to install software. Just connect your computer to the board via a USB cable whenever you want to save an image. Both PC and Mac compatible.

PDF, JPG and PNG Support
Users can easily save image files to USB memory or a PC in either PDF, JPG or PNG formats.

Specifications

	Model Name	N-20J	
Size	Installation Method	Wall Mount or Floor Stand*¹	
	External Dimensions (Without Marker Tray)	W42.52 × D3.5 × H27.56 inches (W1080 × D89 × H700 mm)	
	Weight	22 lbs (10 kg)	
	External Dimensions With Floor Stand (max.)*¹	W42.52 × D26.85 × H68.62*² inches (W1080 × D682 × H1743*² mm)	
	Floor Stand Weight	27.5 lbs (12.5 kg)	
Board	Panel Size	W35.43 × H26.62 inches (W900mm × H600mm)	
	Effective Reading Area	W34.65 × H23.23inches (W880mm × H590mm)	
	Number of Panels	2	
	Grid	2 inch (50mm) Grid	
	Scrolling	Endless in one direction (Horizontal scrolling)	
	Drive Method	Motorized / Manual	
	Reading Method	CIS (Contact Image Sensor)	
	Reading Illumination Light Source	RGB LED	
	Reading Resolution	Main scanning direction (vertical sheet surface) 100 dpi (3.84 dots/mm) Sub scanning direction (horizontal sheet surface) 50 dpi (1.92 dots/mm)	
	Reading Time	Black & White: approx. 11 s Color: approx 11 s	
Interface	USB Ports	3 Ports: Type B for PC and Type A for Printer and for USB Flash Memory	
	Saved Output	File Format	PDF, PNG & JPG
		Resolution	Standard Type: 864 x 576 dots (fixed) / High Resolution: 1728 x 1152 dots (fixed)
