Noticeboards/Pinboards

Pinboards

Our pinboards are a soft-core board with a durable Velcro[®]-receptive fabric surface.

They are available in either blue or grey to match our combo boards and are aluminium framed to give a tidy smart finish and match our other whiteboard products. We use a commercial grade, non-woven, Velcro[®]-receptive fabric which provides excellent durability and does not show pin-holes.

They also feature a strong softboard core for superior holding power and are 'self-healing' so do not weaken with heavy use. They are well suited for hanging papers as well as heavier items like calendars, booklets, etc.

If you require another size or colour take a look at our [custom pinboards](#).
