

## Specifications

---

Compact arch shaped keyboard with a built in integral number pad that easily slides out to the right hand side. The number pad is always on hand when needed and in the closed position provides more mousing space. Perfect for the correct action of a mouse to let you get your elbow closer to your body. Great where space is at a premium and where there is a need for reducing shoulder abduction.

Tremendous flexibility and helpful

occupational health outcome by letting you use a mouse or the keyboard in lieu of a mouse, except when you have to move the pointer. Easy to transport and perfect as part of a mobile workstation. The arch assists with better typing support ensuring comfort over long typing periods. Multimedia shortcut function keys. Enhance Function Key Zone which operates blue dual shortcut without software driver support. Separate Internet Key Zone. Clipboard Key Zone including scroll bar below space bar for easy use. Extra USB plug to provide extra power at USB for add-on input devices.

Pad stored 330mm x 180mm x 33mm,  
Pad out 440mm x 180mm x 33mm  
Depth 180mm Weight 750 g
