Combination Whiteboard/Pinboards

Combination Whiteboard/Pinboards

Combination boards are a pinboard and whiteboard all in one.

They are available in blue and grey to match our [pinboards](#) and are aluminium framed to give a tidy smart finish and match our other [whiteboard](#) products. We use a commercial grade, non-woven, Velcro[®]-receptive fabric which provides excellent durability and does not show pin-holes.

They also feature a strong softboard core for superior holding power and are 'self-healing' so do not weaken with heavy use. They are well suited for hanging papers as well as heavier items like calendars, booklets, etc.

The whiteboard surface covers half of the board and we use our [WITAX™ premium magnetic surface](#).

They are suited to many uses at home, school or in the office.

If you require another size or colour take a look at our custom made combination boards.
